It's a long life, but devotion to the true interests and prosperity of the American people has won for it new friends as the years rolled by and the original members of its family passed to their reward, and these admirers are loyal and steadfast today, with faith in its teachings, and confidence in the information which it brings to their homes and businesses.

As a natural consequence it enjoys in its old age all the vitality and vigor of its youth, strengthened and ripened by the experiences of over half a century.

It has lived on its merits, and on the cordial support of progressive Americans.
